

TafiPan

Section 1. Identification

Common name: TafiPan

Product Code: N/A

Synonym: Phase 2 standard CARB particle paneling, particle paneling, agglomerated paneling, rough paneling.

Material uses: Furniture, construction and lamination

Supplier / Manufacturer:

Tafisa

4660 rue Villeneuve

Lac-Mégantic

Québec, Canada, G6B 2C3

Phone: 819-583-2930

In case of emergency:

(819) 583-3014 (ext 333) - Security 24h

(819) 583 2930 – Front desk 8h to 17h

Or call your local Emergency Health Services Center.

Section 2. Hazards identifications

Classification:

Oxidizing Solid, Category 3

Combustible dust

Eye irritation, Category 2A

Signal word: Warning

Hazard statements:

H272: May intensify fire; oxidizer.

H319: Causes serious eye irritation.

Precautionary statements:

P210: Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

P220: Keep/Store away from clothing and combustible materials.

P264: Wash exposed and/or contaminated area thoroughly after handling.

P280: Wear protective gloves/protective clothing/eye protection/face protection.

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do – continue rinsing.

P337+P313: If eye irritation persists get medical advice/attention.

P370+P378: In case of fire: Use (see section 5) to extinguish.

P501: Dispose of contents / container by a local waste disposal company according to regional regulations.

Section 3. Composition and information on ingredients

Name	CAS	Concentration %
Wood (woody fibres)	N/A	80 - 100
Ammonium nitrate	6484-52-2	0.1 - 15
Formaldehyde	50-00-0	<0.1

Section 4. First aid measures

Description of first aid if required:

In solid form, classification, health hazards and first aid measures are most unlikely. In case of fine particles and dust from secondary transformation exposure, apply the following:

Eye contact:

Rinse eyes thoroughly with water for at least 15 minutes.

Skin contact:

Wash with plenty of water and soap.

Inhalation:

Bring the conscious victim to fresh air.

Ingestion:

Do NOT induce vomiting.

Indication of immediate medical attention and special treatment needed, if necessary:

Treat symptomatically

Most important acute symptoms and effects:

Causes serious eye irritation.

Most important delayed symptoms and effects:

No known chronic effects or symptoms.

Section 5. Firefighting measures

Flammability of the product:

May intensify fire; oxidizer.

Flash point:

N/A

Auto-ignition temperature:

200°C / 392°F - 280°C / 536°F (variable)

Products of combustion:

Carbon oxides, nitrogen oxides

Special protective actions for fire-fighters:

Wear self-contained breathing apparatus and appropriate protective clothing.

Suitable extinguishing media:

Water spray, Carbon dioxide, Dry Chemical, Dry sand.

Specific hazard arising from the chemical:

Product base is wood fibres. Product is combustible. It will burn if involved in a fire. Wood dusts may form an explosive mix with air in the right circumstances and concentrations.

Section 6. Accidental release measures

Product poses no accidental spill hazards.

Personal precautions, protective equipment and emergency procedures:

For non emergency personnel: Evacuate the area.

For emergency personnel: Wear appropriate protective equipment (see section 8)

Environmental precautions:

Not applicable

Methods and material for containment and cleaning up:

Use appropriate tools to put the spilled solid in a convenient waste disposal container.

Section 7. Handling and storage

Precautions in Handling:

Do not ingest. Do not breathe dust. Wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Avoid contact with skin and eyes.

Precautions in Storage:

Keep container tightly closed in a cool and well-ventilated place. It must be stored in a place where the ambient temperature and humidity are close to the values at which the product will be used.

Section 8. Exposure Controls, Personal Protections

Control parameters:

Component	CAS	Value	Control parameters	Basis
Wood (woody fibres)	N/A	TWA	5.0 mg/m ³	Québec RQMT
		TWA	15.0 mg/m ³	OSHA
		TWA	5.0 mg/m ³ (inhalable fraction)	OSHA
Formaldehyde	50-00-0	Ceiling	3 mg/m ³	CNESST
		STEL	2 ppm	OSHA
		TWA	0.75 ppm	OSHA
		Ceiling	0.3 ppm	ACGIH

Engineering controls:

Ensure adequate ventilation and a good air outlet in order to keep contaminant concentrations below the permitted exposure limits. It is essential to consider the nature and the dangerousness (explosiveness) of wood dust in the process of selecting control systems.

Personal protective equipment:

Eyes: Wear safety glasses with side shields.

Skin/body: Wear standard work clothes to prevent abrasion.

Respiratory: If ventilation is insufficient, choose appropriate respiratory protection according to levels and duration of exposure.

Hands: Wear work gloves to avoid cuts, splinters or abrasions.

Other: An emergency eye and body wash must be available on site.

Section 9. Physical and chemical properties

Physical state: Solid

Color: Variable depending on printed paper

Odour: Variable according to the type of wood

Melting point/Freezing point: Data not available

Boiling point: Data not available

Appearance: Panels

Flash point: Data not available

Auto-ignition temperature: 200°C / 392°F - 280°C / 536°F (variable)

pH: Data not available

Solubility: Insoluble

Density: Data not available

Section 10. Stability and reactivity

Chemical reactivity: Stable under recommended storage conditions.

Conditions to avoid: Open flames, high temperatures, excessive humidity

Incompatible materials: Oxidizing agents

Hazardous decomposition products: Carbon oxides, nitrogen oxides

Section 11. Toxicological information

Acute toxicity:

Component	CAS	Value
Ammonium nitrate	6484-52-2	DL ₅₀ Oral: Rat = 2950 mg/kg DL ₅₀ Cutaneous: Rat > 5000 mg/kg CL ₅₀ Inhalation: Rat - = 88.8 mg/L 4h
Formaldehyde	50-00-0	CL ₅₀ Inhalation: Rat - = 177 ppm 4h

Skin corrosion/irritation:

Formaldehyde: May cause skin irritation

Serious eye damage/irritation:

Ammonium nitrate: Causes serious eye irritation.

Formaldehyde: Causes serious eye irritation

Respiratory or skin sensitisation:

Not applicable

Gem cell mutagenicity:

Formaldehyde: Suspected of causing genetic defects

Carcinogenicity:

Formaldehyde: May cause cancer

Reproductive toxicity:

Not applicable

STOT- Single exposure:

Formaldehyde: May cause respiratory irritation

STOT- repeated exposure:

Not applicable

Aspiration hazard:

Not applicable

Information on likely route of exposure:

Not applicable

Section 12. Ecological information**Ecological data for aquatic environments:**

Component	CAS	Value
Ammonium nitrate	6484-52-2	CL ₅₀ - Carp 447 mg/L - 48h CE ₅₀ - Water flea 490 mg/L - 48h

Persistence and degradability:

Data not available

Bioaccumulative potential:

Data not available

Mobility in soil:

Data not available

Other adverse effects:

Data not available

Section 13. Disposal considerations**Waste disposal:**

Dispose of the chemical waste is in conformity with the federal, provincial and local laws. Store the residues of the product in safe containers.

Section 14. Transportation information

No TDG/DOT/IMDG/IATA Classification

Section 15. Regulatory information**NFPA Classification:**

Health: 0
Flammable: 0
Reactivity: 0
Specials conditions: 0

Legend: 4: Severe, 3: High, 2: Moderate, 1: Slightly, 0: Not hazardous

U.S. Federal regulations

California proposition 65 requirements: Piercing, sawing, sanding or shaping wood products creates wood dusts, a substance recognized for causing cancer according to the state of California. Avoid inhaling wood dusts or use a dust mask or other personal protection measures.

Section 16. Additional information

Date of issue:

2020-04-02

Version:

6.00
