

ABOUT TAFISA®

Tafisa® operates one of the largest particleboard and TFL manufacturing plant in North America. Inaugurated in 1992 and located in the Lac-Mégantic region of Quebec, Tafisa® employs nearly 400 people.

Serving both residential and commercial markets across North America, Tafisa® is recognized as a global leader in sustainable particleboard manufacturing.

At Tafisa®, you'll find the inspiration and products you need to create truly unique, design-forward spaces that stand the test of time. Choose from our Lummia, Sommet and Prélude lines—all backed by our outstanding quality and service.

PRÉLUDE® SOMMET® LUMMIA™

INSPIRING EXCELLENCE

In our pursuit of sustainability, we are reducing the amount of printed materials to lessen our environmental impact. Enclosed, you will find digital versions of our latest brochures and pamphlets.

Thank you for supporting our eco-friendly initiatives by using and re-using this "Scan and Learn" pamphlet.

REWOOD™ TECHNOLOGY

In 2024, Tafisa is celebrating 20 years of REWOOD! Pioneers in North America, we promote the circular economy by using not only post-industrial wood, but also post-consumer wood. In other words, we use recycled wood from deconstructed homes and wood pallets to manufacture our products, keeping them out of landfills.

GET INSPIRED WITH LUMMIA'S NEW COLOURS

Tafisa expands the Lummia collection to make it the most comprehensive range of high-gloss and matte decorative surfaces, always at the forefront of contemporary design trends. This year's new products emphasize sophistication and luxury, introducing essential neutral tones as well as lighter shades of blue, sage green and warm terracotta. What's more, we offer perfectly matched HPL, mouldings and edgebanding to meet every design need.

LUMMIA COLLECTION

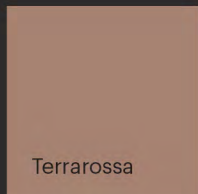

Offered in High Gloss or Perfect Matt finishes, Lummia lacquered panels are the ideal choice to meet the needs of today's design professionals and consumers. What's more, their outstanding machinability, remarkable resistance to scratches and fingerprints and vast range of colours make them ideal for virtually any application.
