## KARISMA COLLECTION

As recent addition to Tafisa's Prelude Series, the Karisma collection introduces a dimension of contemporary sophistication and is an ideal choice for those seeking a natural and avant-garde aesthetic.

With its brushed look and randomly distributed matte porosities, the Karisma texture displays a natural and highly realistic appearance that immediately captures attention.

Whether through its decorative panels (TFL) or laminates (HPL), Karisma brings elegance and authenticity to any interior design project.

## KARISMA NEW RELEASES

Spearheading trends, the Karisma collection is blossoming with the addition of 4 Brazilian acacia shades and 4 spalted maple shades. The Brazilian acacia now offers a dynamic structure and captivating colours with exotic charm. With its bold pattern and contemporary colours, the spalted maple enhances and renews a classic wood essence.

Inspired by the uniqueness and beauty of its embossed texture, the addition of the black shade to the Karisma collection was a must! Black is magnified here by the low sheen level and the organic, natural character of the Karisma texture, offering a simply stunning effect.
