

PRÉLUDE®

SÉRIE

TAFISA®

VOTRE VISION, NOTRE COLLECTION

Grâce à la série Préluce, il devient encore plus facile d'allier esthétique, fonctionnalité et durabilité. Explorez une gamme de surfaces décoratives aux textures et teintes inspirantes agrémentée d'une multitude de produits complémentaires qui faciliteront la réalisation de vos projets. De plus, la série Préluce vous propose des panneaux constitués à 100% de bois recyclé, provenant de sources post-consommation et post-industrielles.

materia

Dernier ajout à notre série Préluce, **Materia** s'impose comme la solution idéale pour ceux qui recherchent l'élégance des surfaces décoratives mates abordables sans compromis sur le style.

nouveau

karisma

Karisma exerce son pouvoir d'attraction et est devenu un incontournable de l'industrie. Sa texture de bois brossé mate lui confère une apparence naturelle et authentique.

alto

Alto imite l'aspect linéaire d'un plaquage de bois reconstitué. L'alternance de ses zones mates et lustrées amplifie une texture au relief accentué.

bois satiné

La texture **Bois satiné** évoque avec subtilité la finition des bois durs d'ébénisterie. Elle comporte une douce surface satinée et de très légers pores qui lui confèrent une finesse appréciée des connaisseurs.

urbania

Urbania simule un motif de pores de bois qu'on retrouve habituellement sur du plaquage sur quartier et sur rive (rift). La linéarité de son motif rend cette texture à la fois moderne et intemporelle.

crystalite

Classique dans l'industrie, **Crystalite** affiche un motif simple et universel. Sa résistance à l'usure fait d'elle une texture à l'épreuve du temps.
